***The look of hand-cut slate creates an aesthetic statement like none other.***

## **DESIGN AND DURABILITY**

From light commercial to residential applications, ArrowLine® steel slate roofing is the next wave in roofing. ArrowLine roofing will not warp, split, peel, or crack and defies winds up to 160 mph. It can easily withstand frigid northern winters as well as the blistering southern sun. Coated with a deluxe TRINAR® finish to maximize color retention, ArrowLine steel slate roofing panels are available in 5 solid ENERGY STAR® colors and 6 blended dark rich colors. The unique double embossing pattern adds panel strength strong enough to be walked on. Complete the look by adding siding, soffit and gutter systems in complementary colors.

## **EXCELLENT PERFORMANCE**

ArrowLine roofing has a unique 4-way locking system that allows them to be installed quickly and easily while locking out the harshest of weather conditions. Virtually maintenance-free, ArrowLine roofing's 12" exposure provides a clean, distinctive look that improves the design and 'curb-appeal' appearance of your home.

## **OUR WARRANTY PLUS PROGRAM IS UNMATCHED**

We continue to set the standard with an above-and-beyond Warranty Plus program that takes the concern out of investing in metal roofing. We understand that when you pay for a superior product, it should be backed by a superior guarantee. That's the Warranty Plus promise. ArrowLine roofing products carry a lifetime, non-prorated limited warranty with hail and fade protection. The warranty is also transferable if the owner sells.
