

Tradition Without Compromise

corrugated

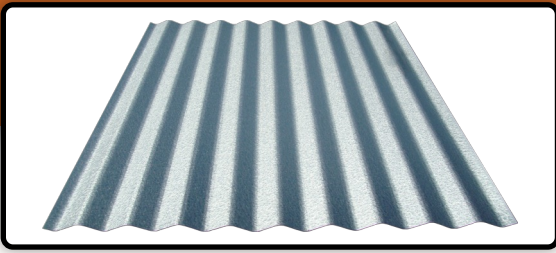

Affordable wavy
corrugated panels

Highly popular for generations on agricultural buildings including barns, sheds, and poultry buildings, Corrugated panels have more recently gained tremendous popularity as a modern contemporary product.

Used on interior walls and ceilings in restaurants, homes, and much more, Corrugated panels offer style at a very reasonable cost point.

corrugated

Tradition

For decades corrugated has been used on everything from chicken coops to steak houses. Sheds to homes. Farm ranches to interior walls.

It's nothing special. Just a well designed, timeless roofing material.

Without Compromise

Not only available in the old galvanized finish, corrugated is also available in even longer lasting finishes of Galvalume® and pre-painted baked on finishes.

These non-compromising, long lasting finishes ensure a one time investment that will pay off for years to come.

Roof or Walls

Lap it one rib for walls, two ribs for roofs. Simple yet effective protection against wind, rain, hail and more.

- Energy Star Rated on All Colors
- Installs over Solid Decking or Open Framing
- Minimum Slope: 3:12
- High Quality SMP Baked on Paint

Tradition Without Compromise

Advanced Protective Coatings

Corrugated panels are protected by baked on enamel paint: tough for installation, resistant to fading, and Energy Star® reflectivity to save on utility bills.

Paint: Durable baked on paint offers a permanent finish, easily lasting 40+ years. This ensures protection and beauty for years to come.

Galvalume: Under the paint, Galvalume (55% zinc, 45% aluminum) provides lasting corrosion protection, even if paint is scratched during installation.

Steel: A heart of high-tensile steel guarantees strength and endurance. With the highest ratings possible for wind, hail, and fire, Corrugated panels are ready to weather anything nature gives out.
