

Craftsman Steel Lap Siding

Craftsman steel siding that offers traditional style and class

Craftsman Siding is our signature steel siding, and Craftsman Lap Siding is our traditional style residential siding line. From smooth and HD textured finishes, Craftsman is built to add permanent beauty to your home.

Design & Size

We provide Craftsman Steel Lap Siding custom cut to the half inch per specifications. Any length is available from 2' up to 35'. These custom crafted panels come in 10.75", 8.12", and 6.57" sizes.

Thickness options include 29 and 26 gauge.

Warranty & Finish

Painted Craftsman Lap Siding carries a 50 year paint warranty, 50 year substrate warranty, and 30 year fade/chalk warranty. Unpainted Galvalume carries a 45 year warranty.

The painted option is a baked on enamel paint over primer and Galvalume. The non-painted Galvalume option is 45% zinc and 55% aluminum with a clear acrylic overcoat.

Purpose & Use

Craftsman Steel Lap Siding is a great choice for residential and light commercial use. A steel substrate and hidden flange fastening system lock out wind and water.

Craftsman Board & Batten is designed to be installed over solid decking, but can sometimes be installed over wood battens when going over uneven surfaces.
